

HR-System according to IEC 61243-5 SYSTEM 1000

Portable voltage indicator for HR-systems (0 – 90V).

- Indicate voltage present.
- Out door and in door use.
- All products in System 1000 are RoHS complaint.
- IEC61243-5

VI 1000

- VI 1000 voltage indicator for HR-system (90V)
- Long life low energy neon lamp indicates voltage present.
- VI3000 is designed for indoor / outdoor use.

TECHNICAL DATA – VI1000.

- Frequency 50 – 60HZ.
- Degree of protection: IP54 (Epoxy filled housing.)
- Component housing dimension: 16x36x99mm
- Suites 4mm safety socket.
- Temperature range: -25°C to $+65^{\circ}\text{C}$.

SPECIAL FACILITIES.

- Can be functionally tested by using adjustable voltage source 0- 110VAC.
- No need for external auxiliary voltage source.
- Extremely robust
- Low weight 120gr.
- No internal battery that needs to be changed.
